QTS Customer Solutions

We offer solutions tailored to meet the needs of every customer, from a handful of cabinets to extensive, single-tenant facilities. QTS has leveraged our ability to provide this range of business to accelerate our large-scale campus strategy to provide customers long-term growth. Each customer utilizes one of three types of deployments - **Multi-Tenant, Single-Tenant or Federal Secured**.

Multi-Tenant

We meet your needs to provide customers' access to a wide-variety of solutions from small to large deployments within a colocation environment.

Single-Tenant

With decades of pre-development, design, construction and operations experience, we bring to life our scalable and innovative single-tenant solutions.

Federal-Secured

We deliver compliant and secure data center solutions to U.S. government agencies and departments.
